product description: The internal suspension is used to suspend the cable tray or cable ladder from the threaded rod.

The threaded rod is anchored to the hanger using an MN nut, which must be ordered separately. The dimension of the nut is chosen by the diameter of the threaded rod.

Fixing the outer hanger to the route is done with bent edges of the sidewalls of each other.

The hanger allows the installation of partition in the cable route.

Maximum load is 90 kg.

configuration: S - Pre-Galvanized, zinc-layer 15 - 27 µm
F - Hot Dip Galvanized, zinc-layer 50 - 100 µm

sales amount: á 1 pc
